PROFESSIONAL SUMMARY

Informatics senior at Yuan Ze University focused on artificial intelligence and explainable AI. Author of two XAI research papers (one submitted, one in progress) and a hands-on builder across machine learning, systems, and full-stack development. Interested in applying AI and software engineering to real-world domains such as smart manufacturing and applied research.

EDUCATION

B.Sc., International Bachelor Program in Informatics 2022 – Present

Yuan Ze University · Taoyuan, Taiwan

Relevant coursework: AI, Deep Learning, Data Mining, Big Data, Smart Manufacturing, Image Processing, Networks, Databases. Includes Mandarin Language Program.

Undergraduate Studies, Informatics 2021 – 2022

National Central University · Taoyuan, Taiwan

Advanced Studies Diploma, Applied Economics (Statistics Option) 2017 – 2021

CTPEA · Port-au-Prince, Haiti

RESEARCH EXPERIENCE

Undergraduate Research

Yuan Ze University · Taoyuan, Taiwan

Author of a submitted paper, “Quantitative and Human-Centered Evaluation of Explainable AI Methods: A Comparative Study of Visual Attribution Techniques” (2025), and an in-progress manuscript on ensemble attribution with uncertainty quantification.

Built reproducible Python benchmarking pipelines (PyTorch / Captum) to compare explanation methods across quantitative metrics and human-centered evaluation.

EXPERIENCE & LEADERSHIP

Teaching Assistant Feb 2026 – Present

Yuan Ze University · Taoyuan, Taiwan

Teaching assistant for Assembly Language and Computer Organization, supporting student learning and course delivery.

Youth Ambassador Program 2016 – 2017

U.S. Department of State

Selected as a national delegate for a U.S. exchange on leadership, youth diplomacy, civic engagement, community service, and social entrepreneurship (New York, Washington D.C., Catskill, Port-au-Prince, Chantal).

TECHNICAL SKILLS

- **Languages:** Python, C++, Java, Kotlin, Rust, SQL
- **AI & Data:** Machine Learning, Deep Learning, Reinforcement Learning, Data Mining
- **Systems:** TCP/IP, Databases, Operating Systems, Networks
- **Tools:** Android Studio, Streamlit, Cadence Virtuoso Studio, Azure AI Studio
- **Domains:** Smart manufacturing, industrial analytics, system integration
- **Spoken Languages:** English (Fluent), French (Native), Haitian Creole (Native), Mandarin (Intermediate), Spanish (Intermediate)

CERTIFICATES & HONORS

- 2024 Academic Award — MOFA Taiwan Scholarship Program (2024)
- Semiconductor Fabrication 101 — Purdue University, UT Austin & Intel (2026)
- Cadence Design Systems: Essential Guide (2026)
- Supervised Machine Learning: Regression and Classification — DeepLearning.AI / Stanford University (2024)
